

VITOR BELFORT STATEMENT:

In anticipation for my hearing before the Nevada State Athletic Commission (NSAC), I want to address questions concerning a drug test I took back on February 7, 2014, that was requested by the NSAC.

At the time that test was taken, I was considering filing for a therapeutic use exemption (TUE) for testosterone replacement therapy (TRT) from the NSAC. While I had not made formal application for a TUE, the NSAC nonetheless requested I take the test and I willingly complied. I further confirmed to the NSAC, in writing, the widely known fact that I was then presently on TRT and had been for many years leading up to that test and that I had further taken the TRT dosage recommended by my doctors the day prior.

The results of the February 7, 2014, test indicated that my testosterone level was above the therapeutic range. While levels slightly outside the normal therapeutic range are not uncommon for some undergoing a TRT regimen, and my doctors immediately modified my therapy to return me to within the therapeutic range (as you can see the 22nd February test results was normal), I do want to acknowledge that the February 7, 2014 test indicated my level was above the range.

Since that February 7, 2014 test, I have taken several subsequent tests, in late February, March, April and May, and the results of each test indicate my levels were either normal or below normal. To avoid any ambiguity, I am releasing, along with this statement, the results of all the test noted above and will provide the same to NSCA for their consideration as part of my licensing application. I further welcome any additional testing that the NSAC deems appropriate and necessary with respect to being granted the privilege of a license to fight here in the State of Nevada.

Shortly thereafter, on February 27, 2014, the NSAC banned all TRT and I stopped my TRT treatment that very same day. Now that I am applying for a license in Nevada, I don't want any clouds hanging over my ability to compete and I understand it is my responsibility to prove to the NSAC that I have the requisite fitness to be licensed in Nevada.

I truly appreciate and thank the Commission for considering my application, and I look forward to providing any information and answering any questions that the NSAC might have on June 17. And if the NSAC sees fit to grant my application, I look forward to fighting on July 5, 2014 in Las Vegas and again proving that I am one of the best fighters in the world.

DECLARAÇÃO VITOR BELFORT

Em preparação para minha audiência com a comissão atlética de Nevada(NSAC), gostaria de esclarecer todas as duvidas relacionadas ao exame surpresa que fiz no dia 7 de Fevereiro de 2014 a pedido da comissão atlética de Nevada.

No período desse exame estava considerando aplicar para isenção de uso terapêutico (TUE) referente ao TRT para a comissão atlética de Nevada.

Mesmo que ainda não havia feito a aplicação formal para a comissão fui solicitado a fazer o exame e o fiz sem hesitar.

Apos completar todos os exames comuniquei por escrito a comissão de Nevada que ainda permanecia sob tratamento (TRT) e que havia tomado a dosagem recomendada pelo meu medico no dia anterior.

O resultado do exame de 07 de fevereiro indica que meu nível de testosterona estava acima do limite. Embora níveis que estejam um pouco acima do normal não são incomuns para aqueles que estão em tratamento(TRT), meu medico imediatamente modificou a dosagem para os níveis normais, como você pode ver no resultado com níveis normais no exame de 22 de fevereiro.

Tenho sido examinado constantemente desde o fim de Fevereiro, Março , Abril e Maio e todos os resultados mostram que meus níveis estão normal ou abaixo do normal. Para evitar qualquer ambigüidade, estou divulgando junto com essa declaração os resultados de todos os exames citados acima e irei fazer o mesmo para a comissão de Nevada para que eles considerem como parte da minha aplicação para a licença.

Estou aberto a novos exames que possam ser requisitados pela comissão de Nevada para obter a licença no estado.

Logo apos no dia 27 de Fevereiro de 2014 quando o TRT foi banido pela comissão atlética de Nevada eu parei meu tratamento no mesmo dia. E agora que estou aplicando para a licença em Nevada, não quero que fique duvidas relacionadas a minha capacidade de competir e entendo que é minha responsabilidade é provar para comissão que tenho todos os requisitos para obter a licença em Nevada.

Gostaria de agradecer a comissão de Nevada por considerar minha aplicação e dizer que estou ansioso para responder qualquer pergunta que a comissão possa vir a ter na audiência do dia 17 de Junho, e provar que sou um dos melhores lutadores do mundo no dia 5 de Julho em Las Vegas caso a comissão me conceda a licença.
